[DISPATCHES TO THE OREGONIAN]

EASTERN DATES TO MAY 23.

THE CIVIL WAR IN FRANCE.

Continued Success of the Versaillists

VERSAILLES May 22—The Commune troops rallied at Montmartre and Hotel de Ville The approaches are defended by barricades Much serious fighting took place and resulted in Versailles troops occupying three fourths of the city A conflagration is raging near Invalides, and the insurgents' battery on Montmartre is cannonading the city L'Admirault telegraphs that everything is satisfactory and, although fighting may continue for several hours, the city is absolutely won Many of the Commune leaders were taken and there were some awful massacres

LONDON, May 22,—A dispatch dated outside of Paris Monday evening says the isolation of the city continues Fires are raging inside A dense smoke overhangs Montmartre Frequent explosions are heard The sound of cannon and musketry continues

It is said that the Prussians are occupying Vincennes Prussian outposts have received strict orders to drive back all insurgents attempting to pass their lines A Communist General seeking to escape from Paris has been turned back by the Germans Their advance corps has been doubled The headquarters of the Prince of Saxony will shortly be removed from Maroney to Campeigne The Guards will return to Germany by the end of the present week

Congratulations from Thiers.

VERSAILLES, May 22—In the Assembly to day Thiers made a congratulatory speech of the great success of the Government arms He said that he had not expected to effect an entrance into Paris for three or four more days, and gave an account in detail of the movements on Sunday, which terminated so victoriously He announced that the Government has determined to visit with vigorous punishment the most criminal of the insurgents

Bills have been introduced to restore the Chapel of Expiation and the column in the Place Vendome the latter to be surmounted by a statue of France

A vote of thanks to Thiers and the army was adopted by acclamation

The End Approaching.

PARIS, May 22—All is over 70 000 Versaillists have entered the city and more are coming. They marched in all night through six gates, meeting slight resistance Barricades were not defended and no mines exploded Versaillists are now moving upon Hotel de Ville where the Commune will make a last stand The Versaillists behaved splendidly having committed no excesses

The Versailles army have occupied Paris, with headquarters at the new opera house Cissey's headquarters are on the south side of the Seine at Ecole Militaire

There was a great explosion this afternoon near the Esplanades of Invalides.

The British Parliament.

LONDON, May 22—In the House of Lords to night it was asked if, in view of the evident aversion of the Canadians to the treaty of Washington, the government intended to press ratification before the 12th June.

Earl Landerdille quoted the report by Atlantic cable of Senator Sumner's speech denouncing the treaty as a peace measure, ridiculed the idea of apology from England and declared she had never made any

Earl Granville (Foreign Secretary,) declined to answer Earl Landerdille It would be inconvenient now to discuss the terms of the treaty He sympathized as little with Sumner as with Lord Landerdille The treaty is not a treaty until ratified It has already been published in the United States, for the American Senate has begun investigation into the means by which it was obtained for publication It was impossible to anticipate the decision of the Senate

Lord Granville declined to pledge the Government to a refusal to ratify the treaty before the fifteenth of June simply because notice had been given of an intention to raise a discussion on it in Parliament Before ratifications are exchanged it is understood the Canadian Parliament is to be consulted

Earl Russell insisted on his demand that an opportunity be given for discussion as a Parliamentary prerogative

Earl Grey said diplomacy was impossible, if it had to be submitted to Parliament before ratification It was the prerogative of the Crown to conclude treaties on its own motion

Earl Granville stated that an official copy of the treaty was only received by the Government yesterday It was now printing and would be submitted on Tuesday Other official documents will be withheld, pending the debate in the Senate of the United States

WASHINGTON CITY

Proceedings in the Senate.

WASHINGTON, May 22—The Senate confirmed Nicholas Fish, of New York, as Secretary of the Legation at Berlin

The Senate was engaged five hours to day on the treaty Davis and Thurman made speeches indicating amendments they desired to be made Thus far only one Senator has mentioned how he will vote on the treaty and this will be in opposition

Vice President Colfax was taken suddenly ill during the executive session and was obliged to be taken to his room His illness is not serious

No conclusion has been reached by the Senate as to the time of taking a vote It is variously reported that a vote will be had on Tuesday, Wednesday or Thursday

Fearful Scenes in Paris

NEW YORK May 22—A Paris dispatch says the city is in a tremendous commotion From windows in the west front of the Tuilleries the scene of conflict can be distinctly seen An immense body of Commune troops have concentrated around the Hotel de Ville, having retreated from the outskirts The collapse of the commune is imminent

JUST SO—We clip from an exchange the subjoined lucid statement of progressive philosophy We commend it to the careful consideration of that class who consider the Bible records "fabulous" We suppose the writer of this eloquent passage to be a disciple of Darwin

"The unbegotten, self existent Oneness or special spontaneousity evolved the infinitude of universal materiality to the extremest verge of the illimitable This spontaneous act of the concentrated Oneness ... the universal alm ... general The ozone or soul of the universe by the ... force permeated materiality, thus diffusing the germs of all things throughout the circumscribed infinitude The incandescent nebulosity of etherealized materiality evolved the heterogeneousness unity of the absolute, hence the general homogeneity of special dissimilars The universal all ... acting on like heterogeneous conditions is continually struggling to return to the Oneness The immediate although transitory result of these spontaneous efforts is the endless variety of phenomena presented by the universe at any given point or period of duration"

The Paducah (Ky) *Herald* gives utterance to the following undeniable sound Democratic sentiment "We do not believe that the question of the right of secession has been settled either by the sword or by any of the fraudulent amendments to the Constitution That is a question outside of and from its very nature incapable of being settled in this way It is a sovereign right belonging to the States which no earthly power can take from them except by the utter annihilation as States"

Major William McDiarmid a printer in the office of the Cincinnati *Times* is ninety years of age, and used to set up Sir Walter Scott's poems from the original manuscript

The London *Times* earnestly hopes the American Senate will ratify the new treaty It is confident that both Houses of Parliament will do so

SAN DIEGO, May 23—Gov Safford left for Arizona to day He carries assurances to the people of Arizona that the right policy will in the future be adopted.

NEVADA.

TOANO, May 23—Messrs Marx and Bonfeld have just returned from an exploring trip over the new road between this place and Boise City Idaho They report the road in good condition for freighting, and sixty miles shorter than the old route

CURRENT NOTES

The new hotel of Potter Palmer's in Chicago is to cost one million of dollars. It will be eight stories high, and contain 600 rooms

Peter Harvey of Boston is going to publish a book of reminiscences about Daniel Webster He has more material for such a book, much of it new to the public, than any other man living

Burlington, Vermont, has lost its hermit by the death of Isaac Nye, who for thirty years had lived in a small room in the back of an old store, owned by himself, and in which he had formerly done business as a merchant. Some fifteen years ago, he took an Irish boy, who was his sole companion ever after, and who, at his request, laid him out, after death, on the counter of the dilapidated old store

Supervisor Perry, of North Carolina, has forwarded to the Internal Revenue Bureau, copies of reports of local officers in the 7th District of that State, showing the danger to which they are exposed there in their efforts to enforce the law The Sheriff of Jackson county writes that Deputy United States Marshal Cannon and Deputy Collector Deaver, while on their way to Webster, N C, with property seized for violation of the revenue laws, were fired upon several times Bench warrants were issued and ineffectual efforts made to arrest the guilty parties. Sheriff Buchanan considers it extremely hazardous for officers to travel over that country without protection.

Gov Jewell of Connecticut, in his message to the Legislature, reviews the financial condition of the State, and recommends many reforms The debt has been reduced the past year, the School Fund of $2 000,000 is unimpaired, and well invested He recommends additional legislation to prevent frauds in elections, and repeats the recommendation of two years ago for the amendment of the laws so as to make the rights of the wife to her property in all respects equal to those of the husband in his, and that in case of death the same interest be secured to either survivor in the property of the other He also recommends a radical change in the divorce laws, declaring the present system worse than that of Indiana, and is bringing the State into disrepute In 1871 the number of divorces granted was 406, many without reasonable cause

An attempt was made on the night of April 30, to throw express train No 12, on the Erie railway, off the track near Deposit, N Y. The train was descending the summit grade and approaching the station, when, at Coward's Crossing, it ran into some obstruction Its weight and speed, however, overcame the resistance and the danger was escaped The watchman at once began removing the obstructions when he was assailed by a shower of stones from the wood on the side of the road, and was compelled to abandon the work and procure assistance The train was more than usually heavy, and contained the Directors' car, upon which were Gould, Fisk, and several division superintendents, on their way to the city to assist in arranging a new time table If the effort had been successful it would have been attended with a great loss of life, as the grade near Deposit is fifty feet to the mile and the speed of the train forty to fifty miles an hour

CALIFORNIA ITEMS

On the 16th inst a car load of California peanuts was started from Sacramento for the East This is the first large lot sent forward

United States Marshal Morris and Mr Langley, of San Francisco, have been engaged in a lively newspaper war regarding the reliability and defects of the city census and City Directory. The latter makes the population of the city much larger than the U S. Marshal's returns, and probably is exaggerated

Democratic partisan organs of California are finding fault with the Democratic Judges for deciding in favor of railroad subsidies This is about the first example on record of the Democrats going back on each other. The Judges doubtless acted according to their legal convictions, and ought not to be abused

Ex Senator Duke Gwin and several other chivalry Democrats have been engaged in canvassing several counties for the purpose of securing delegates to the Democratic State Convention opposed to Haight and in favor of Johnson for Governor It has been asserted repeatedly of late that if the anti Haight wing succeeds in the contest, Gwin is to be sent to the United States Senate in place of Cole

The California Pacific Railroad Company has determined to build a railroad from Adelante, seven miles north of Vallejo, to Petaluma, a distance of twenty three miles The route will run as near the town of Sonoma as the grade will conveniently permit—probably within a mile. Work has already been commenced, and it will be completed without delay The branch to commence at the town of Napa has been abandoned The route of the Napa Valley road will be changed so as to run through the town of Napa on a straight line

Seattle Coal.

[From the San Francisco Commercial Herald]

Outside of her grain, wool, wine, and mineral treasures, California has little to dispose of, as an offset for her large and varied importations of manufactured articles, either of Eastern or foreign make Her future greatness will depend mainly on her capacity to be self sustaining, and become the factor for other people in direct business communication with her own population This can only be accomplished by the establishment of manufactories that will enable her to supply not only her own wants but those of her neighbors who do not possess the requisite facilities Our water power being very limited we are compelled to employ steam, and to this end an abundant supply of cheap and good fuel is indispensable Our iron foundries reduction works, iron rolling mills, shot and lead works, woolen mills, flouring mills, and, in fine, all our manufacturing industries, are driven by steam The announcement of a new and inexhaustible supply of superior steam making coal which can be furnished at rates that will permit of its use with additional profit to the manufacturer, is a matter of serious importance

The Seattle coal mines are located near the town of that name, in Washington Territory and about nine miles from an excellent shipping point on Puget Sound They have been prospected to the extent of showing, that the supply is inexhaustible, and are so circumstanced that no hoisting or pumping will be necessary to perform the work of mining These advantages, and proximity to this market enable the company to furnish the coal at greatly reduced rates, when compared with those of other coals employed for like purposes Seattle coal burns with a clear, bright flame, and neither cakes like the English, nor snaps like the Scotch cannel It is singularly free from odor, not a trace of sulphur being observable, and emits but little smoke, comparatively speaking, while it evolves a much greater volume of heat from a given quantity than any other coal in our market with the exception of anthracite It fires readily, lasts long generates steam rapidly and leaves neither clinker nor slag, it consumes entirely, and requires no stirring or other attention after being ignited For domestic purposes, it has no equal in this market, and is greatly admired for generating steam, and the evolvement of illuminating gas The existence of such superior fuel for manufacturing purposes its comparatively cheap price, accessibility at all ... us, and abundant supply, can scarcely fail to stimulate and encourage domestic industries dependent on steam power for their success while it may enlarge the field of operations and incite to the establishment of new manufacturing enterprises

The *German Correspondent* referring to the criticisms of foreign journals upon the new German Constitution, and especially to the charge of Cæsarism, says

"The whole Constitution is based on a system of conciliation and mutual concessions The Emperor can take no important step he cannot even declare peace and war without the assent of the Federal Council so that he will always be ... the governments of the smaller States ... convince them of the justice of his views ... is done the co-operation of the ... must be secured The rights possessed by that body are too important to permit ... slighted or overawed, while at the same time it will be obliged to come to an understanding with the Federal Council before it can adopt any important measures In a word compromise is the spirit of the Imperial Constitution

Millard Fillmore was too dull to learn the name of cards In trying a case once in the Superior Court in Buffalo ... opponent John Talcott called him the ... Bower of his client's case At this Fillmore, who thought Talcott was calling him an opprobrious name arose and said ... please the Court, my learned friend calls me a 'right bower' I should like to have him explain what he means ... your Honor, responded Talcott ... my learned friend's curiosity ... right bower is the greatest knave in the pack That settled Fillmore The audience cheered the jury gave Talcott a verdict and Fillmore went home and redoubled his exertions to learn the mysteries of euchre, with his characteristic ill success

The New York *Democrat* says "Mr Greeley, on his farm, keeps a running account with his hens, double entry When a hen lays an egg she runs around the bases and when she strikes the home base where the book keeper is located, she sings out, 'Tally one, or Tally two' as the case may be because some of them are repeaters and the book keeper gives her credit and charges her for her meals In this way he can tell what hens are shirking ... makes on each hen His ... experience is that roosters are a gigantic fraud, putting on style around and never laying an egg once in two weeks"

WEDNESDAY MORNING, MAY 24, 1871.

An Awkward Dilemma.

We think it probable that the Albany *Democrat*, up to the time its last issue was printed, had not received the platform adopted by Vallandigham and his associates in Ohio. For in the last *Democrat* the following appeared:

> If the Democratic managers in Ohio desire to gain a victory they will take a positive position, adopt a positive platform, and nominate a positive Democrat, like Mr. Pendleton, for Governor. Uncertain platforms and uncertain candidates completely disarm and discourage the great working masses of the Democracy and make political campaigns spiritless and often disastrous to the party.

Now if the *Democrat* intends to maintain these views it must condemn this Vallandigham movement and all others of like character. Is that paper ready to accept the constitutional amendments, reconstruction, negro suffrage, and all the "odious measures of Radicalism" as irreversible, as Vallandigham and his friends have done? We take it, from the above extract, that the *Democrat* and its "positive" friends are not ready to accept this platform. Such a movement would indicate that the Democratic party had completely exhausted its stock of political issues and principles and become bankrupt, and that it was about to try to borrow enough of "Radical" ideas and measures to set it up in business again.

Our contemporary, it will be observed, still sticks to Pendleton. Such fidelity is commendable, although Pendleton is a very [illegible] luck." Pendleton, it will be remembered, ran last time for Governor,—"a positive man on a positive platform,"—and was badly beaten. It is not easy to conjecture why the *Democrat* supposes he would be more successful another time.

Probably also the Roseburg *Plaindealer* when its last issue appeared had not seen the Vallandigham *brochure*. For that paper also continued to talk in the old strain, and to insist that its party would never "go back on" its principles or "blot out one word from its creed." What will the Roseburg organ say of the movement to pledge the Democratic party to an acceptance of the most radical measures of Radicalism?"

There is a warm commotion among our Democratic brethren on these subjects,—the contest being over the question whether it is safer to stick to "positive" Democratic principles or to try to get upon "Radical" ground.

The Northwestern Thoroughfare.

Readers who take an interest in railroads and in the progress of course examine closely every statement or announcement that throws light on this important subject. The objects and aims of the Northern Pacific Railroad Company are now tolerably well understood and everybody can see what progress they are making with their work, and what the prospects are for further progress. The Company are indefatigable in their efforts to make known not only throughout the United States but also in Europe the purposes of this enterprise, the resources with which they undertake it and the opportunities for settlers on the lands lying along their great thoroughfare. An advertisement of the Loan placed on the market by the Company and secured by first mortgage on the railroad and land grant, appears in our columns to-day. This, we believe, is the first publication of the Loan on the Pacific coast. As the bonds are always receivable for the Company's lands at low prices, opportunities will be offered in this way for settlers to obtain their choice of lands as the construction of the railroad progresses, and the Company receive the patents from the Government.

From the preparations the Company are making to push the work, it would be quite safe to anticipate that trains will run over the whole length of the road before the end of the year 1875. When the Company get their resources well in hand, and make available the proceeds of their vast land grant, they will be able to urge forward the enterprise as if by magic. The present year will witness great progress in the work, but it may be expected that next year the progress will be vastly more rapid.

The Albany *Evening Journal* shows that the reduction of Federal taxes in New York this year as compared with the amount paid last year is $10,362,500, or forty-five per cent. of the whole amount collected during the year ending June 30, 1870. The *Journal* then effectively contrasts this reduction with the inordinate increase of State and municipal taxes in New York under Democratic rule. "Carry out at Washington," says the New York *Herald*, "the programme of the late session at Albany, and on the same scale, and we shall have a budget of a thousand millions a year." In other words, according to the *Herald* the annual levy under Democratic rule in the nation would amount to nearly half the aggregate of the debt. And the *Herald* is no enemy to Tammany either.

The natural tendency of things, in connection with the construction of the proposed railroad from California via Goose Lake and Southern Idaho to a junction with the Union Pacific at Salt Lake, will be to unite the Oregon and California Railroad with that line by an eastern extension of the Oregon and California road from Rogue river valley. This will accomplish the object which Judge Williams contended for a year ago in the Senate, and which the *Herald* and the Democratic party were opposed. It seems quite probable that this matter may again become a subject of public discussion. Things are shaping that way. The people of Southern Oregon will be able to see another time who their friends are and who their enemies.

The people of Hayti are enjoying the full advantages of a depreciated currency, and it is no wonder that they are anxious to preserve their independence and their paper riches. One dollar in gold is worth $500 of Haytian currency. If a man buys a hat worth three dollars and tenders a half eagle in payment he gets back $1,000 in change in good paper money of the "Black Republic of Hayti." A person with a few hundred dollars in gold may enjoy the sensation of enormous wealth by the simple process of exchanging it for paper money. Its equivalent in commodities may not be any such great matter, but if he keeps the money what matters it? He may easily be worth a million and enjoy the grandeur of it as perfectly, if he be a true philosopher, as though it was of hard gold.

A telegraphic dispatch from Hartford, May 16th, says that Gov. Jewell was inaugurated on that day, and that the display was very imposing. From the report of proceedings, we infer that the Democracy didn't fight on the occasion, after all.

The French have taken Paris. The phrase, "The Dutch have taken Holland," is no longer unique, and will hardly serve longer for a pun.

Advice Ungraciously Received.

Whatever surrender the weak-backed portion of the Northern Democracy may be disposed to make in the hope of gaining a victory next year, the most prominent Southern Democratic papers [illegible] a different purpose and still proclaim the "true faith." Southern Democrats have been advised by some of their Northern allies to accept the constitutional amendments and negro suffrage, and to nominate a candidate who can command the support of the Northern wing of their party. This advice is not very graciously received by the Southern Democratic press. For instance, the Montgomery (Ala.) *Mail* says:

> If the Democratic policy shall be so shaped as to attack the odious amendments on the ground of their centralizing tendency with regard to Government powers, we are content to fight the battle on that issue, and bide the time which must at length set all things even. But although we leave our ultimate object in the background for a season, it shall nevertheless be kept duly alive; so that at the proper moment it may be brought prominently forward to assume that leading position in the matters for final adjustment before the bar of right and justice that its immeasurable importance demands.

The New Orleans *Times* says:

> What possible benefit can result from such discussion it is difficult to imagine. The only purpose we can divine of such a revival of old and dead issues—such a raking among the ashes of old political strifes—is to keep the South in a proper state of humility and subordination to the Democratic chiefs of the North, and coerce them into a blind following of their leadership and unconditional submission to their control.

The Nashville *Union* says:

> There is a class of new born Democrats who never tire of exercising dead issues, and who really injure the party to the extent of their influence by their implied assertion that we are lugging a lot of old, useless rubbish. As we view the political field, it is the Radical party who seeks to perpetuate dead issues, with a view to retain power, as they did in 1868, on the questions of 1860 and 1864. And the Democrat who raises the hue and cry of dead issues is really arraigning his party before the Radical tribunal.

These are but a few extracts from many of the Southern editorials which show that the Democracy of that section have other purposes in view beside the acceptance of the Fourteenth and Fifteenth Amendments.

The dispatches again allude to the tragedy at the mouth of the Umpqua river on the recent visit of the steamer *Pelican* there. San Francisco papers give an extended account of the affair, but their statements differ in no essential particular from the account telegraphed here. It is a truly lamentable occurrence, and thinking of it the probability continually suggests that the man on whom summary vengeance was inflicted may, after all, have been innocent. The parties in this transaction took on themselves a fearful risk and responsibility. They may yet be brought to regret that they did not deliver the accused into the hands of the law, instead of taking his life in a manner which the law must regard as murder.

OREGON.

There are now about 80 men at work on the locks at Oregon City, and more will be put on shortly.

The Salem woolen mills are to be in operation again as soon as repairs and renovations are completed, the flume rebuilt and the wool purchased.

From the Baker City *Democrat*: Patterson & Johnson, of Eldorado, lately received between $60,000 and $70,000 worth of goods, direct from Chicago and the East. We are told that a train of about twenty large prairie schooners were employed in their transportation from Kelton to Eldorado.

The *Bed Rock Democrat* makes the following suggestion to a Portland School Director: While the General is refunding the school money we hope he will pay the little bill of four dollars which he owes us on subscription, and which our agent informs us he refuses to liquidate. We need it badly, General. You are reputed to be wealthy, General. Why, then, don't you fork over? It is a small sum, we know; but "every little helps," you know, General.

The little town of Oakland, in Douglas county, is said to be improving rapidly, in anticipation of the coming railroad. The people have little doubt now that they will witness a railroad running through the Umpqua and Rogue river valleys, and connecting Portland and San Francisco, in their own "day and generation;" and no doubt the Oaklanders expect that their native town will soon be an important and flourishing depot.

The Learned Murderer.

A dispatch from Elmira, New York, dated May 17th, gave this:

> The community are in a frenzy of excitement over the approaching fate of Ruloff. Over a thousand applications have been made to the Sheriff to witness the execution, but under the law only twelve persons are permitted to be present. All attempts by his counsel to secure commutation or respite have failed. Gov. Hoffman telegraphed them last evening that he had decided not to interfere, and this seals his fate. Preparations for the execution are progressing rapidly.
>
> Ruloff rose at 3 o'clock this morning in an apparently cheerful state of mind, and has not shown the least sign of breaking down. He has not paid the least attention to religious matters, but on the contrary constantly indulges in violent and profane language, abusive of Governor Hoffman and others for cutting him off before the completion of his work. He has by this conduct forfeited what little public sympathy he yet retained, and not a word is now heard in his favor. The gallows will be put in place this afternoon and the execution will take place in the yard of the jail at noon to-morrow. As the enclosure is small, the Sheriff will not admit more than seventy spectators.

Lepers in Honolulu.

The Honolulu *Pacific Commercial Advertiser* has the following:

> The spread of leprosy in and about this city is a subject of frequent remark. Scarcely a day passes without our seeing on the street individuals who have all the outward appearances of this loathsome disease. One noteworthy case was that of a recent native witness on the stand in the Supreme Court, whose occupation was that of a fish dealer and sometimes a meat butcher. Think of such a person manipulating your beefsteaks! If it is contagious—and we assume there is little room for doubt on the subject—more vigorous measures should be adopted for the separation and isolation of the "suspects." It is said that various kinds of cutaneous diseases very much resemble the leprosy in appearance, but that the real disease is readily distinguished. This may be, but it would seem that the leprosy itself takes on a variety of forms. It is undoubtedly a serious thing to assume the responsibility of taking a person forcibly from family and friends and doom him for life to banishment, but the "greatest good of the greatest number" imperatively demands it. It is evident that a degree of laxity in regard to the disease has latterly obtained that is dangerous to the public safety, and we therefore call the attention of the proper authorities to the subject.

Modern Swords.—An English paper says:

> It would probably be impossible for any English smith now to produce such work as some of the later specimens of articulated armor in the Tower of London. On the other hand, where for special purposes special attention has been given to the manufacture of the iron, the result is satisfactory. We question whether either Toledo rapiers or Damascus sabres would stand uninjured, taking them one with another, the rude test to which Mr. Wilkinson, of Pall Mall, subjects his best swords. It is true that of these carefully made blades we have seen three out of four damaged in the test. But the one which passes is a weapon to which a man may safely trust. If any corslet now worn in European warfare resists its thrust, it is the fault, not of the blade, but of the arm that wields it. In preparing iron for special purposes, the chemical character of the water used in the factory appears to be very important. It was an old by-word in the steel trade that a good sword could not be made at Sheffield, nor a good knife at Birmingham, the sword being the boast of the latter town, and the knife of the former.

Worm Crushers.—A man came down from San Francisco not long since, on his way to the lower country. His great attraction centered in his feet. He had two seats in the car reserved for his benefit. While here he went into a barbar shop to get his face scraped. The operation being completed, he asked the tonsorial artist the damage. Nothing, sir! regular charge is two bits, but it's worth one dollar to see such a curiosity. Here is your change," handing the man six bits. On another occasion he got in a chair to have his understandings polished. "Sah," said the sable shiner, "you mus' excuse me. I do small jobs. I never takes contract. But if you wish, sah, I will work this afternoon on dem fellers for five dollars."—*San Jose Independent.*

Narrow Guage Railroads.—It has been estimated that upon a level road, or what approximates to a level road in engineering parlance, where the broad guage would cost $24,000 per mile, the narrow guage would cost $9,000. In Prussia official reports show that the average expense has been only $8,000 per mile. A narrow guage road has been surveyed in Colorado Territory, and the cost is estimated for a guage of two feet and nine inches to be $8,000 per mile for a distance of eight hundred and fifty miles. In Australia such a road is in successful operation, and the original cost was less than $9,000 per mile.—*Ex.*

NEW TO-DAY.

NEW 7-30 GOLD LOAN

OF THE

NORTHERN PACIFIC RAILROAD CO.

Secured by First Mortgage on Railroad and Land Grant.

GOLD PAYMENT.

BOTH PRINCIPAL AND INTEREST ARE PAYABLE in American Gold Coin, at the office of Jay Cooke & Co., New York City—the Principal at the end of 30 Years, and the Interest (at the rate of seven and three tenth per cent. per annum) half yearly, first of January and July

THE RATE OF INTEREST

Is a most convenient as well as profitable one, being seven dollars and thirty cents each year on every hundred dollars, or on the various denominations of bonds as follows.

Two cents per day on each	$100	bond
Ten " " " "	500	"
Twenty cents per day on each	1,000	"
One dollar " "	5,000	"
Two dollars " "	10,000	"

BONDS RECEIVABLE FOR LANDS.

By the terms of the mortgage the 7-30 bonds of the Company are always receivable, at par and accrued interest, in payment for the Company's lands at their lowest graded prices; and by the arrangement between the Trustees and the Directors of the Company, in all cash purchases of land from the Railroad, 10 per cent discount will be made from the purchase price whenever the Company's first mortgage bonds are offered in payment. In other words, Northern Pacific 7-30's are, if desired, at all times convertible, at 1.10, into real estate at lowest cash prices

These Bonds, principal and interest payable in American gold coin, are now offered for sale at par and accrued interest in *Currency*, thus yielding at the present rate of premium on gold, over eight per cent. gold on amount of gold investment.

It will be noticed that these Bonds may be used at the holders option as a LAND WARRANT, for the purpose of locating any lands which are granted to the Company at a premium of *ten per cent.* meanwhile earning for the holder *eight per cent. per annum*

During the coming year it is anticipated that the Company will have equipped sufficient roads to entitle it to patents from the Government for 3,000,000 acres of land in Minnesota and 500,000 acres in Washington Territory. For sale by

THE N P R R 7 30 GOLD LOAN —It will be seen by advertisement in our paper this morning that the new loan is now offered in this market The first mortgage bonds of the company are offered for sale at par and accrued interest in denominations of $100 to $10 000 The principal and interest are payable in American gold coin at the office of Jay Cooke & Co New York City—the principal at the end of 30 years and the interest at the rate of seven and three-tenths per cent (per annum) half yearly, first of January and July The loan seems to entirely secure to the holders as not only the railroad with all its equipments but the magnificent land grant of the company are held for the payment and the terms upon which the bonds can be converted or exchanged for lands, are easy simple and advantageous to the purchasers To those who desire to purchase homesteads, the inducements offered by the loan are greater than might at first glance be apparent The bonds draw 7 3 10 per cent interest and then when presented in payment for lands of the company, ten per cent of the price of the land is taken off, which makes the per cent to the purchaser over seventeen

AMUSING AND RIDICULOUS —The most ridiculous and foolish stories have been told on the streets and at the "whittling corners" for the last day or two, about the delay of the *John L* Before she got here, one story had it that she had put into the Umpqua in distress and that her passengers were coming overland, another that she was wrecked, another, that she had gone on north etc These stories were all exploded of course, by the arrival of the steamer, but a new brood was at once hatched out, and there was a lively day of it yesterday The parties mostly attribute the delay of the steamer to the "total depravity" of Ben Holladay and the fact that S G Elliott, the great millionaire was a passenger by the steamer, and the stories mostly, too, came from that most candid and patient and uncomplaining individual, a ... —an individual never known to fret or to curse the grub or the owners of a steamship.

MANIFEST OF JOHN L STEPHENS —John R Tarter Umatilla, 1 piano, Hyman Bros, Portland 3 pkgs H Rosenfelt 10, Wasserman & Co, 2 J Levy & Bro, 1, P D & H Co 5 cs tobacco and 160 pkgs A Meyer, 32 E J Northrup, 9 Failing & Co, 12 Jacob Meyer, 4 S S Long Duck Chung, 47 L Ash 1 S P, 10 H Co 23, Horgren & Shindler, 10 F & Co Yuen Wo, 9, Wm Currier, 1 J H H, 1 J J & Co 66 L Goldsmith & Co, 13 G H Fore 19 Donnerberg & Barrett, 38, J Simon White & Co, 82 J McCraken & Co, 101 Corbitt & Macleay, 117, W Church & Son, 4 Lane, R Richards, 5, O & C R R, 140 M Harris, 44; Yen Wo & Co 31 Friedman & Co, 53 Wythe & Co, 8, J Kraemer & Co, 23 Walter Bros, 5 M Meier, 10, Corbett F & Co, 129 Empire Bay Co, 50, A Meier, 58, Smith & Davis, 30 Hodge, Calef & Co, 139 Geo L Story Co, Fleischner & Ackerman, 21 Saml Smith, 5 Sprinkenbach & Co, 52, Geo W Hillman, 6, Jos & Lewis, 1 105 Leveridge, Wadhams & Co, 150, Hawley, Dodd & Co 206, A Q M, 2, 66, A & Q M Fort Stevens, 106—company baggage, C B Wright, Astoria, 7 J G Megler, 1 C L Parker, Astoria, 1, Megler & Co Astoria 2 J Ross, Astoria 2 The above freights included the following specified goods 2000 pkgs commissary stores, 178 do dry goods, 116 do boots and shoes, 64 do agricultural implements, 304 do drugs 230 do fruit and vegetables, 136 sks coffee, 4300 pkgs assorted groceries, 80 do hardware, 106 cs coal oil, 306 pkgs iron and steel, 38 bdls iron pipe 60 pkgs castings, 8 do furniture, 75 do paints, 308 do liquors, 63 do tobacco and cigars, 52 do stationery 160 bxs soap, 36 pkgs saddlery, 18 sewing machines, 38 do crockery, 23 bales wool 100 bxs spikes, 300 pkgs China mdse, 110 pieces water pipe, 4 wagons, 4 horses. THE LUMBER.—We are informed that the ... Railroad bridge across the Wallamet river will require about 2,000,000 feet of timber and lumber, for the construction of the bridge ... and the trestlework by which the road will reach Holladay Avenue—for planking and ... will require 300 000 feet of plank and ... feet of timber If the latter were reduced to board measure, the figures would be hard upon 1 000 000 feet It is said that the current demand upon the O & C R R Co's mills, for lumber, are equal to nearly 2,000,000 feet per month. When it is calculated how many men and teams are necessary to do all this work, some idea may be had of the immense magnitude of the operations of the Railroad Company.

PORTLAND LIBRARY — The following books have been received and placed upon the shelves of the Portland Library rooms Elements of Astronomy with illustrations, by J Norman Lockyer The Occupations of a Retired Life, by Edward Garrett author of "The Crust and the Cake" The Kindergarten, by Dr. Adolf Douai, illustrated. The Fables of Esop, with a Life of the Author illustrated from original designs by Harrison A Brave Lady, by the authoress of "John Halifax Gentleman," illustrated, Camille, or the Fate of a Coquette, by Alexander Dumas, Not Wisely but Too Well by the authoress of "Cometh Up as a Flower", Drayson Hall Series—True to his Flag

A COMPETITIVE INSTITUTION —The New York ... people are not to have everything their own way it seems A day or two since there arrived from Salem, we believe, the world renowned Prof. Ned Smith's Original Colored Circus and Menagerie which the bills claim to be the most wonderful combination of talent, trick ponies, monkeys curious, wild and trained, ever seen in the world Prof Ned, if we are not misinformed, is a colored genius, who got his start in Salem, and now that he is fairly launched out in the world 'f show, it is matter for speculation to what heights of conquering he may attain Don't laugh now but give the boy a chance

ARRIVAL OF THE STEAMER JOHN L STEPHENS. The N P T Co's steamship *John L Stephens*, ... Bolles, Commander, arrived from San Francisco yesterday morning at half past one o'clock, just after our paper had been put to press She left San Francisco May 17th at 11 30 A M and crossed the Columbia bar on the 22d at 7 A M stopped at Astoria and discharged freight, leaving that place Tuesday morning and arriving at this city yesterday morning She encountered strong northerly winds during the passage Her passenger list is as we published it last Wednesday morning, and we therefore omit it

IMPORTS PER GEO S WRIGHT —The propeller *George S Wright*, from Sitka, brought the following freights under coasting manifest To D ... 7 pkgs mdse A T P, 41, Well Bros, San Francisco, 1 bale furs, K 44 pkgs L G & Co, Brown, 1 box cosmetics—all from Sitka. Under foreign manifest, she brought from Nanaimo, 35 tons coal to G W Weidler, part of which it appears by the memorandum, was used for fuel and some thrown overboard

TAX SALE —The Sheriff has advertised a column and a quarter of names in the "Litigant ..." who are delinquent on the county tax ... and whose real estate—specified in the advertisement—will be sold at public auction on the ... day of June unless the parties sooner settle their taxes and costs The sale will commence at 10 A M at the court house on the day named, and continue from day to day till all the seized parcels shall be sold

LECTURE AT PHILHARMONIC HALL —Rev Dr ... will lecture for the benefit of the "W-- Society" next Saturday night at the Philharmonic Hall This will be a special literary entertainment, and as it is for the purpose of raising funds to start on foot a very laudable institution a large attendance will doubtless be secured. The subject will be announced soon

ANOTHER TEMPERANCE MEETING —The temperance folks seem to be alive in their work There was a meeting last evening in Carter's Hall, and there is to be another this evening in Hoisgravel Hall, corner Madison and First streets Addresses will be delivered by Messrs E W Lyon, W H Moore and others

BURGLARIOUS ATTEMPT —Somebody who had not properly studied the Decalogue and the statutes of Oregon, attempted to burglarize a room in the second story of Porter & Weigand s building on First street, early yesterday morning Being detected, they weakened and fled

BUILDING OPERATIONS —About a dozen buildings in Holladay s Addition, are either under way or contracted for There will probably be ... this summer in that part of East Portland, ... times that number of houses for rent ... or business

AMUSEMENTS.

THE FESTIVAL —There was not so large an attendance last evening at the Literary and Floral Festival, given for the benefit of the A M E Zion Church, as the merits of the entertainment deserved The Hall was tastefully arranged, the performances were very creditable and the refreshments first class A considerable number of white people lent encouragement by their presence to the efforts our colored fellow citizens are making to advance themselves in religious education and refinement

EMMET GUARD S BALL —The votaries of Terpsichore should remember that the Emmet Guard will give a ball at their Armory this evening The gentlemen who have the management know how to make things pleasant for their guests.

SOCIABLE —There will be a sociable at the Taylor street M E Church basement this evening

Whitcomb's Asthma Remedy is a sure cure

The Household Tonic

The efficacy of Hostetter s Celebrated Stomach Bitters as a specific for recruiting the enfeebled body and cheering the desponding mind has passed into a proverb In the United States where this ... has borne down all opposition and ... all rivalry the demand for it has annually increased in a heavier and heavier ratio for years until at last the regular sales of this preparation exceed those of all other stomachics combined Eminent members of the medical profession and hospital surgeons without number have candidly admitted that the pharmacopœia of the faculty contains no prescription that produces such beneficial effects in dyspepsia general debility and nervous diseases as Hostetter s Bitters To use the language of a venerable physician of New York The Bitters are the purest stimulant and the safest tonic we have But the uses of the great vegetable antidote are much more comprehensive than such praise would imply As a preparatory antidote to epidemic disease, a genial stimulant, a promoter of constitutional vigor an appetizer a stomachic, and a remedy for nervous debility no medicinal preparation has ever attained the reputation of Hostetter s Bitters It is the household tonic of the American people and in all human probability will be so for centuries to come The magnates of science recognize its merits and it is emphatically the medicine of the masses is proved by its fast and ever increasing sales

Greek Adaptation of "Excelsior"

'Twas grow ng dark so terribly fast
Whin through the town up the mountain there pashed
A broth of a boy to his neck in the snow
As he walked his shillalah he swung to and fro
Say ng it s up to the top I m bound for to go
Be jabers

He looked mortal sad, and his eyes were as bright
As a fire of turf on a cowld winther night
And divil a word that he said could ye tell
And he opened his mouth and let out a yell,
It s up to the top of the mountain I ll go
Unless covered up by this bothersome snow
Be jabers

Through the windows he saw as he traveled along
The ligh of he candles and fires so warm
But a big chunk of ice hung over his head
Wid a shiv r and groan by St. Patrick! he said,
It s up to the very tip top I will rush
Anin thin if it falls it s not meself it ll crush
Be jabers

Whist a bit said an owld man whose head was as white
hat fell down on that miserable night
n the wather the bit of a lad
is so dark and the walkin so bad
not light to a word that was said,
ho top if he wint on his head
Be jabers

m young girl, such as like to be kissed
he shtop and how could he resist?
s fingers and winking his eye
ng upon her he made this reply—
ant to kape on till I got to the top
shwate self has axed me I may as well shtop,
Be jabers

t be axin whin he did go away
be a hastely gossoon
his darlint in the shwate honeymoon?
wld man has praties enough and to spare
